David hasn't had a chance to see my additional comments on the ARARs (but has seen the others), and so he may refine/add to/subtract from, but in the meantime, just to let you know, we are trying to give these to the program (and Leif) today.

These will likely be my "final" comments, but am preserving some flexibility for additional issues to be caught.

We will send with a "high level" summary of the problems that probably takes from our earlier emails to Leif/Suzanne.
